About us

i Enterprise is a leading name in Construction Chemicals, in terms of trust and reliability in Bangladesh. Among all chemical brands a major portion comes from our partner “BASF”, Germany, a 150-year-old international organization. BASF is the world’s leading chemical company. Top level technical advisor support our distribution network. Our strength lies in Quality and Reliability. We provide free technical services to solve constructional problems, along with detailed technical specification and proposals. One promise, one experience defined by the idea behind our brand -“**Building Confidence**”.

Our success is based on R&D, Competence, Service & Passion to innovate new solutions & products. “No compromise with quality, it’s 100% guaranteed”.

To apply high-tech products, we train specialized applicators to undertake the jobs under proper supervision of qualified Civil Engineers. To maintain high technical standards, we are one of the few companies to have a dedicated Training programs and access to technology lab. International quality, Technical Backup and your Trust makes us a successful and leading Construction Chemical supplier in Bangladesh.

Connected partnerships for sustainable living in Bangladesh

About BASF

Since its beginnings as a small manufacturing company in Germany in 1865, BASF has grown to become the world's leading chemical company, with a portfolio ranging from chemicals, plastics, performance products, and crop protection products, to oil and gas.

With 112,000 employees in most countries throughout the world, BASF reported revenues totaling nearly \$80 billion in 2015.

BASF combines economic success with environmental protection and social responsibility to deliver intelligent, sustainable solutions that add value for our customers in everything that we produce. Every day, their talented, passionate, and connected team of employees dedicate themselves to making a difference by working to meet the needs of a rapidly changing world.

By leveraging science and innovation, BASF develops products and solutions that contribute to conserving resources, ensuring nutrition, and improving the quality of life for people around the world. BASF define success by their corporate purpose statement: We create chemistry for a sustainable future.

BASF Corporation is a recognized leader, having been named One of America's Best Employers by Forbes Magazine, Top 50 Company for Diversity by DiversityInc, a Top 100 Ideal Employers

TARGET MARKET

Focused approach for addressing customer needs

CONCRETE

FLOORING

GROUTING

SEALING & BONDING

WATERPROOFING

ROOFING

PROTECTING

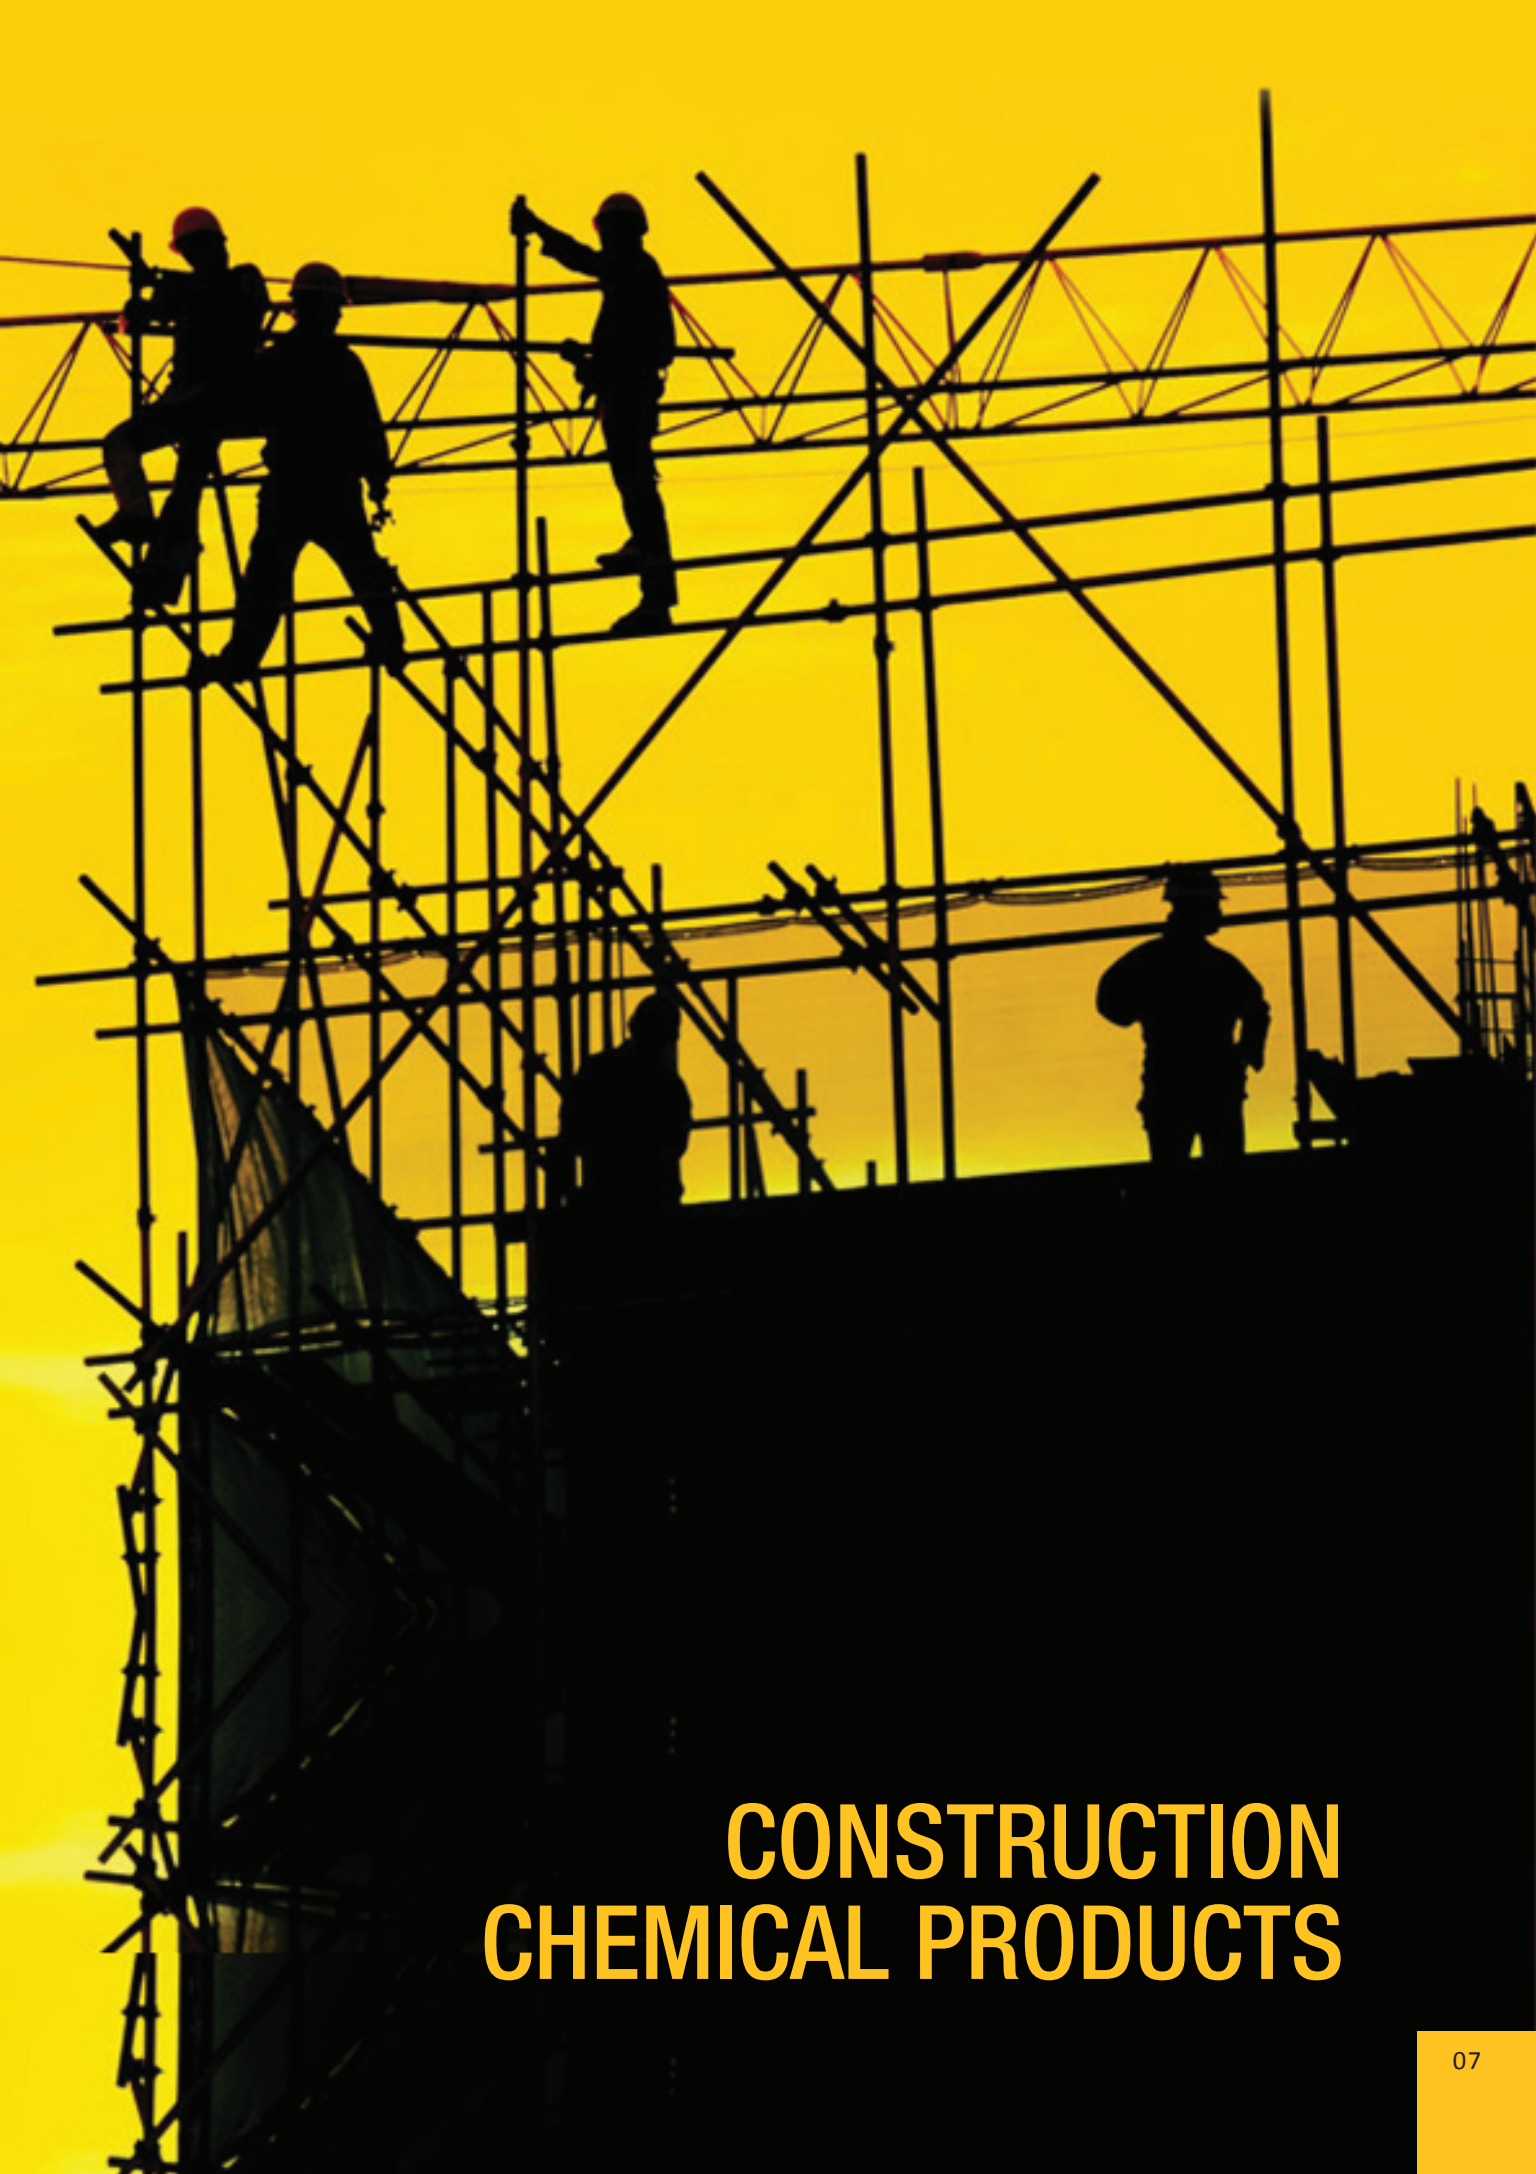

RETROFITTING

TUNNELING

FIRE RETARDATION

CONSTRUCTION CHEMICAL PRODUCTS

RANGE OF PRODUCTS

We supply construction chemicals aligned in six target markets:

- CONCRETE
- WATERPROOFING
- ROOFING
- FLOORING
- SEALING
- REFURBISHMENT

We create chemistry

RANGE OF PRODUCTS

(Continued...)

ADMIXTURES

1. Master Rebuild 1100 - High range water reducing super plasticizer admixture (Early setting)
2. Master Rebuild 623 - High range water reducing super plasticizer retarder admixture
3. Master Pel 707 - Integral waterproofing admixture
4. Master Polyheed 8632 - PCE based retarder cum high strength admixture
5. Master Glenium ACE 30 JP - High range water reducing super plasticizer, high ultimate strength admixture

CONSTRUCTION JOINT & BONDING

7. Master Emaco P168 - General purpose acrylic bonding agent
8. Master Brace 1414 - Epoxy bonding agent
9. Master Seal 910 - Hydro swelling bar for joint
10. Master Emaco SBR - Construction joint waterproofing with bonding agent
11. PVC Water Stopper - Highly flexible PVC water stopper for internal & external construction joint

EPOXY MORTAR

12. Master Flow 935 - Epoxy anchoring mortar
13. Master Brace 2200 - Epoxy bedding and repair mortar

GROUTS

14. Master Flow 150 - Plasticised expanding grout cement admixture
15. Master Flow 870 - Non shrink high strength grout cement

REPAIR MORTAR & STRENGTHENING SYSTEM

16. Master Emaco N303 - Fair face mortar for concrete
17. Master Emaco S488 - High strength repair mortar
18. Master Emaco S346 - Highly flowable and high strength micro concrete

OIL & CURING COMPOUND

19. Master Finish 202 - Shutter oil (Solvent based)
20. Master Kure 107i - Curing agent

RANGE OF PRODUCTS

(Continued...)

EXPANSION JOINTS

- 21. Master Seal NP 472 - Polyurethane(PU) based elastomeric joint sealant
- 23. Filler board - Natural, Bitumen based and Polyurethane bitumen based filler board for expansion joint and soundproofing

FLOORING

- 24. Master Top 100 - Dry shake natural floor hardener
- 25. Ardex FH 20 - Dry shake natural floor hardener
- 26. Master Top 33 - Curing aid, dust proofing hardening compound for floor concrete
- 27. UCRETE-MF MF/AS - HD technology Polyurethane flooring

WATERPROOFING AGENT

- 28. Master Seal 550/ 540 - Acrylic reinforced cementitious, flexible waterproofing coating
- 29. Master Seal 5000 HLM - Liquid cold-applied elastomeric waterproofing membrane system
- 30. Master Seal 501 - Deep penetrative, reactive, capillary crystallization waterproofing system
- 31. Master Seal 505 - Ultra-rapid setting mortar to plug active water leaks in concrete

CONSTRUCTION CHEMICAL APPLICATION

RANGE OF SERVICES

Specialized Applicators to undertake the jobs under proper supervision of qualified Civil Engineers. Our highly trained Applicator team serves construction chemicals application aligned in six target markets:

- CONCRETE
- WATERPROOFING
- ROOFING
- FLOORING
- SEALING & BONDING
- REFURBISHMENT

APPLICATION AREA

Specialized Applicators to undertake the jobs under proper supervision of qualified Civil Engineers.

We establish operating procedures and communicate them so that they follow safety and health requirements.

To apply high-tech products, we train specialized Applicators to undertake the jobs under proper supervision of qualified Civil Engineers. To maintain high technical standards, we are one of the few companies to have a dedicated training programs and access to technology lab. International quality, technical backup and your trust makes us a successful and **LEADING CONSTRUCTION CHEMICAL APPLICATOR IN BANGLADESH.**

APPLICATION AREA

(Continued...)

- FLOORING
- WATERPROOFING
- SEALING & BONDING
- PROTECTING
- ROOFING
- GROUTING
